REMARKS				
25X1				

1. The Strasshof (P 49/S 50) airfield was occupied by 99 Pe-2s between 9 a.m. and 12:30 p.m. on 8 December 1950. Sixty planes were parked on the eastern edge, 24 on the western edge, and 15 on the southern edge of the field. Two fighters coming from the north landed at the field about noon. In-line engines and propellers were definitely identified on the fighters. There was no more flying activity. The field was being cleared of snow.
2. About 95 Pe-2s were stationed at the field between 2 and 4 p.m. on 8 December. Sixty planes were parked on the eastern edge of the field, 20 on the western edge and 15 on the southern edge. Four Pe-2s took off individually and remained aloft for 20 minutes. Two radio trucks with extended antennae were seen at the field. *
3. All previously reported quarters and headquarters in Strasshof and Deutsch-Wagram were still occupied. **
4. [] said that no changes or construction work were seen at the field on 8 December 1950.
- * [] Comment: The observations of two sources indicate that the three bomber regiments previously stationed in Strasshof were there again on 8 December 1950. One regiment was transferred to the Jarndorf airfield in the summer of 1950, probably for training purposes.
- ** [] Comment: The location of the quarters and headquarters in Strasshof and Deutsch-Wagram was previously reported.
